## **Advanced Technology Gunstocks under new ownership**

Effective July 1, 2008, Advanced Technology Inc., the industry's leading gunstock manufacturer, has transferred its manufacturing and sales operations to Advanced Technology International USA, LLC ("ATI-USA"). As of August 4, 2008, all operations were moved to ATI-USA's facilities in Milwaukee, WI.

New owners John Chvala and Eric Pflieger have been in the manufacturing business for over 20 years and offer a wealth of manufacturing knowledge, such as an ISO9000 Certified facility, in-house product and tool design, tool construction, injection molding, decorating and assembly.

John and Eric feel that this ownership change will increase the capabilities of ATI-USA in new product development, high tech materials and forward growth necessary to better serve our customers.
